

All plans provide the same health services you get in Medicaid or LaCHIP, such as well child visits, maternity care while pregnant and through delivery, medical transportation, prescription drugs, mental health services and substance use treatment. The plans also offer many extra services not traditionally covered by Medicaid or LaCHIP. The chart below provides a plan-by-plan comparison of a number of these value-added services. For a more detailed list of health plan services, visit www.myplan.healthy.la.gov. See the flyer, *A Step-by-Step Guide to your Health Care Choices* for more help on how to choose a plan.

	Each plan's Member Services can help you: find a doctor, learn about benefits, access services, file a complaint about a provider or appeal a denied service. All plans have a 24 hour Nurse Hotline to help you figure out if you need to go to the emergency room or learn about health issues. All health plans allow unlimited visits to in-network doctors, as needed.				
Care Management Programs	All of the health plans have special programs to help members with chronic illness such as asthma, congestive heart failure, diabetes, hepatitis C, HIV, obesity and sickle cell anemia. They also have programs for pregnant women with a high risk of problems during pregnancy and delivery. If they do not have a program in place that fits your needs, they will work with you to create one.
